

# Expectations for Lockdowns

# If a Lockdown is called:

Always take this VERY seriously-- even if it's a drill.

Listen to all information available. You will be either barricading or evacuating.

Listen to staff and stay off of all electronic devices.

# If you are in the hall:

Always take this VERY seriously-- even if it's a drill!

Go to the nearest classroom, hide, or EVACUATE.

Listen to all information over the PA and get out of the school if at all possible.

# If you are in the bathroom:

Always take this VERY seriously-- even if it's a drill!

Listen to all information over the PA and decide whether it is best to hide or evacuate the school.

# If you are in the Commons:

Always take lockdowns VERY seriously-- even if it's a drill!

Evacuate if possible through any of the exits near the Commons.

You could also go into the PAC and evacuate from there.

# If the Fire Alarm sounds:

If the building is in a Lockdown and the fire alarm goes off, **ignore it**. If you can safely evacuate, you will be getting out because of the Lockdown situation, not because of the fire alarm.

# Stay Safe:

Be ALERT and MINDFUL at all times!

## If you are in immediate danger:

--Run in a zig-zag pattern and evacuate

--Yell or throw something at the intruder to distract them and buy yourself some time to get to safety.
