

Expectations for Severe Weather/ Tornado

In Severe Weather:

Move quickly and quietly to your designated area of shelter. **CLOSE THE CLASSROOM DOOR.**

Stay off of cell phones.

Do not talk. It is very important for staff to be able to communicate with you and for you to be able to hear them.

In Your Area of Shelter:

We have many people that need to fit into a small area. Keep your legs and arms close to your body.

Stay **COMPLETELY AWAY** from any exterior doors or windows.

Stay away from hallway intersections. Stay behind and away from the double doors of the hallways.

Make sure these doors are closed.

In Your Area of Shelter:

In the hallway, you will be lined up along the wall in a double row (see picture). There will be 4 people across with an area to walk in the middle.

It is NOT expected to sit in the same position as the students pictured, but you need to be prepared to cover your head and neck if necessary.
